## P. R. S. Educational Trust

The Pharmacy education in India is plagued by significant obstacles and defects in this specialised and globalised world. There seems to be an immediate need to start an academic activity to achieve curriculum revision that keeps up with current and upcoming developments in the Pharmacy profession. All around the world, innovation has taken on a guiding role in every facet of life. A country's capacity to develop and utilise knowledge capital impacts its ability to empower and enable its people by enhancing human capacities. Despite unceasing success in pharmaceutical research and education, there are still unclear ideas about how to educate youngsters in the current environment. The absence of learning opportunities, traditional teaching methods, a lack of clarity about the future, and a lack of a clear path or set of goals have caused uncertainty and delirium among the students in the current context. The P.R.S Educational Trust was established in 2016 by Smt. Pramod Sharma and a group of enthusiastic, hardworking, and workaholic individuals with the sole purpose of putting value-based education within everyone's grasp. By offering career development opportunities, education and training, certification programmes, publications that share knowledge, networking opportunities, and other important resources, P.R.S Educational Trust supports and promotes the health care industry as a whole as well as emerging professionals.

P.R.S is an international membership organisation of pharmaceutical professionals who are committed to elevating the profession and giving the Pharma/healthcare community the greatest level of support, information, guidance, and standards. P.R.S members are professionals who play crucial roles in many of the rapidly expanding fields of biotechnology, pharmaceuticals, and medical devices. By offering career advancement opportunities, education and training, certificates, knowledge-sharing, publishing, networking, and other important resources, P.R.S assists the healthcare sector and developing professionals as a whole.

## Jamia Hamdard University, New Delhi, India

The School of Pharmaceutical Education and Research (SPER), Jamia Hamdard, New Delhi, is one of India's premier institutions for pharmaceutical sciences. Established in 1972 as the Faculty of Pharmacy and later renamed, SPER has consistently ranked among the top pharmacy schools in the country. It is recognized by the Pharmacy Council of India (PCI) and offers a wide range of programs including D. Pharm, B. Pharm, M. Pharm, Pharm. D, and Ph.D. in various specializations. The school is known for its strong emphasis on research, quality teaching, industry collaborations, and innovation in drug discovery, formulation development, and pharmacological studies. With state-of-the-art laboratories, experienced faculty, and active engagement in national and international research projects, SPER contributes significantly to the advancement of pharmaceutical sciences in India. Jamia Hamdard's mission is to blend traditional knowledge systems with modern scientific approaches for holistic healthcare solutions.

## Sir Jeffrey Cheah Sunway Medical School, Sunway University, Malaysia

The Sir Jeffrey Cheah Sunway Medical School at Sunway University is a bold, forward-looking initiative committed to academic excellence, research innovation, ethical leadership, and global health service. Located within the Faculty of Medical and Life Sciences, it offers a Doctor of Medicine (MD) programme alongside degrees in biomedicine and medical biotechnology. The MD is a 5-year full-time programme starting each October, providing immersive clinical training at Sunway Medical Centre, Malaysia's leading private quaternary hospital.

The curriculum integrates digital health, planetary health and sustainability, and inter-professional education, supported through global partnerships with institutions such as Cambridge, Oxford, and Harvard to nurture clinician-scientists delivering socially responsible care. The medical school embodies Sunway's mission of transforming healthcare education through community engagement, research opportunities, and values-based leadership to prepare future-ready healthcare professionals.

## About Conference

The upcoming International Conference on Integrative and Translational Research in Health Sciences aims to foster interdisciplinary dialogue and collaboration among researchers, clinicians, industry professionals, and academicians. Co-organized by Sir Jeffrey Cheah Sunway Medical School, Sunway University, Malaysia, and Jamia Hamdard University, New Delhi, the event will be held at the Constitution Club of India, New Delhi, on 4-5th October 2025. This conference will serve as a dynamic platform for sharing innovative research, translational breakthroughs, and integrative approaches that bridge the gap between laboratory discoveries and clinical practice.

## Learning Objectives

1. To explore emerging trends in integrative and translational research in the biomedical and health sciences.
2. To understand the role of cross-disciplinary collaboration in advancing healthcare solutions.
3. To gain insight into the application of traditional systems of medicine alongside modern therapeutics.
4. To provide opportunities for early-career researchers and students to present original work.

## Expected Outcomes

- Increased awareness of integrative and translational methodologies that improve patient care and therapeutic outcomes.
- Establishment of academic and clinical networks for future collaboration between Indian and international institutions.
- Identification of research gaps and potential directions for interdisciplinary studies.
- Recognition and motivation of young researchers through awards and interactive sessions.
- Promotion of evidence-based integration of traditional and modern health systems.

This conference is expected to contribute significantly to the global conversation on sustainable, patient-centered healthcare through innovation, collaboration, and knowledge exchange.

**Director's Message**

It gives me immense pleasure to welcome you to the International Conference IM-HST Summit 2025. This prestigious platform brings together visionaries, experts and scholars from across the globe to share insights, foster collaborations, and shape the future of healthcare, science and technology. At PRS Education Trust, we believe in nurturing innovation, promoting research excellence, and creating opportunities for impactful knowledge exchange. I extend my heartfelt gratitude to all participants, speakers, and partners for their contribution to this meaningful journey. Together, let us inspire progress and build a better tomorrow.
