## About R.V. Northland Institute

R.V. Northland Institute (RVNI) is an ISO 9001:2015 certified institution, affiliated with Dr. A.P.J. Abdul Kalam Technical University Lucknow, Uttar Pradesh. The institute is duly approved by the Government of Uttar Pradesh, Pharmacy Council of India (PCI). RVNI is committed to delivering excellence in pharmaceutical education, research, and professional development.

The institute is strengthened by a dynamic and experienced faculty team with diverse research expertise. Research and Development remains a vital pillar of RVNI's mission, reflected through its recognition as an approved Research Centre of Dr. APJAKTU, Lucknow. Currently, the institute successfully runs M.Pharm programs in Pharmaceutics and Pharmacology, fostering advanced learning and innovation.

RVNI has consistently nurtured a strong research culture, with faculty members and students completing numerous R&D and consultancy projects. To further promote high-quality research, the institute houses a well-established Central Instrumentation Facility (CIF) equipped with sophisticated instruments such as HPLC, FTIR, UV-Visible Spectrophotometer, Biopac, Lyophilizer, Cooling Centrifuge, and several other advanced scientific tools, supporting the research needs of scholars and faculty.

## About Biotenic Pharma

In addition, BIOTENIC PHARMA (CIN: U86905UP2023PTC19474), a newly formed joint venture located in India, enhances the institute's research ecosystem. BIOTENIC PHARMA is an integrated Contract Research Organization (CRO) offering comprehensive one-stop preclinical research and development services to scientific organizations worldwide. The company provides a broad portfolio of pre-clinical discovery and development solutions for pharmaceutical and biotechnology industries. With a global team of skilled scientific professionals, cutting-edge technology, and a strong problem-solving culture, BIOTENIC PHARMA ensures top-quality, on-time study delivery and welcomes the most challenging preclinical research requirements.

## P. R. S. Educational Trust

The Pharmacy education in India is plagued by significant obstacles and defects in this specialised and globalised world. There seems to be an immediate need to start an academic activity to achieve curriculum revision that keeps up with current and upcoming developments in the Pharmacy profession. All around the world, innovation has taken on a guiding role in every facet of life. A country's capacity to develop and utilise knowledge capital impacts its ability to empower and enable its people by enhancing human capacities. Despite unceasing success in pharmaceutical research and education, there are still unclear ideas about how to educate youngsters in the current environment. The absence of learning opportunities, traditional teaching methods, a lack of clarity about the future, and a lack of a clear path or set of goals have caused uncertainty and delirium among the students in the current context. The P.R.S Educational Trust was established in 2016 by Smt. Pramod Sharma and a group of enthusiastic, hardworking, and workaholic individuals with the sole purpose of putting value-based education within everyone's grasp. By offering career development opportunities, education and training, certification programmes, publications that share knowledge, networking opportunities, and other important resources, P.R.S Educational Trust supports and promotes the health care industry as a whole as well as emerging professionals.

P.R.S is an international membership organisation of pharmaceutical professionals who are committed to elevating the profession and giving the Pharma/healthcare community the greatest level of support, information, guidance, and standards. P.R.S members are professionals who play crucial roles in many of the rapidly expanding fields of biotechnology, pharmaceuticals, and medical devices. By offering career advancement opportunities, education and training, certificates, knowledge-sharing, publishing, networking, and other important resources, P.R.S assists the healthcare sector and developing professionals as a whole.

## About Conference

The International Conference on Artificial Intelligence and the Future of Pharma: Bridging Academia and Industry Imperatives is a global platform aimed at exploring the transformative role of Artificial Intelligence in pharmaceutical sciences, healthcare, and drug development. The conference will bring together academicians, researchers, industry leaders, healthcare professionals, and students from across the world to share knowledge, present research findings, and discuss emerging trends in AI-driven drug discovery, clinical research, personalized medicine, regulatory affairs, and smart healthcare systems. This conference seeks to foster interdisciplinary collaboration and bridge the gap between academic research and industrial implementation in order to accelerate innovation, improve patient outcomes, and shape the future of the pharmaceutical industry.

---

## Learning Objectives

1. To explore emerging trends in integrative and translational research in the biomedical and health sciences.
2. To understand the role of cross-disciplinary collaboration in advancing healthcare solutions.
3. To gain insight into the application of traditional systems of medicine alongside modern therapeutics.
4. To provide opportunities for early-career researchers and students to present original work.

## Expected Outcomes

- Increased awareness of integrative and translational methodologies that improve patient care and therapeutic outcomes.
- Establishment of academic and clinical networks for future collaboration between Indian and international institutions.
- Identification of research gaps and potential directions for interdisciplinary studies.
- Recognition and motivation of young researchers through awards and interactive sessions.
- Promotion of evidence-based integration of traditional and modern health systems.

This conference is expected to contribute significantly to the global conversation on sustainable, patient-centered healthcare through innovation, collaboration, and knowledge exchange.
